

The Agnostic's Guide to Spirituality

Meet Your Own Soul... *Up Close and Personal!*

In the late 1960s during a blinding electrical storm, a Navy flight crew was transporting a classified and exceedingly dangerous shipment over a long, desolate stretch of the Pacific Ocean. Suddenly...Lt. Larry James Stevens came face to face with a phenomenon so seemingly horrific and bewildering that its eventual reportage was disbelieved by all personnel assigned to flight squadron VR-21...except the nine crewmen that had also escaped the invader's wrath. This *terrifying* and unexplained (until now) contact, combined with several other paranormal-like interventions—both during and after the Viet Nam War—motivated this intensely inquisitive Science-of-Mind and Spirit researcher to invest over thirty years in a quest to uncover the transformational message contained within extraordinary experience. His empowering, uplifting discoveries are *user friendly to both believers and skeptics*.
